Malaysia

Japan

United States

Indonesia

China

Spain

Guatemala

Vietnam

Panama

Brazil

ATTENDED MARKETS

**We have a presence in
the following markets:**

**Rubber in general
Tire
Adhesives
Footwear
Paper
Asphalt modification**

ATTENDED MARKETS

**We are present in the
following markets:**

Plastics modification

Food

Textile

Paints

Aeronautics

Automotive

Our inventories include products as;

Natural Rubber: *Synthetic Rubber:*

- Crepe
 - HM-20
 - SGR-10
 - SGR-5L
 - SVR- 3L
 - SVR-5L
 - CV-60
- EPDM
 - EPM
 - S-SBR
 - SBR
 - SBS
 - SEBS
 - Hypalon
 - Polyisoprene
 - Nitrile

Our inventories include products as;

Carbon Black:

- Vulcan 3 (N326)
- Vulcan 6 (N220)
- Vulcan M (N339)
- Vulcan 3 (N3309)
- Vulcan 7H (N234)
- Regal 300 (N326)
- Sterling S-LHS (N550 ET)
- Sterling B-LH (N660)

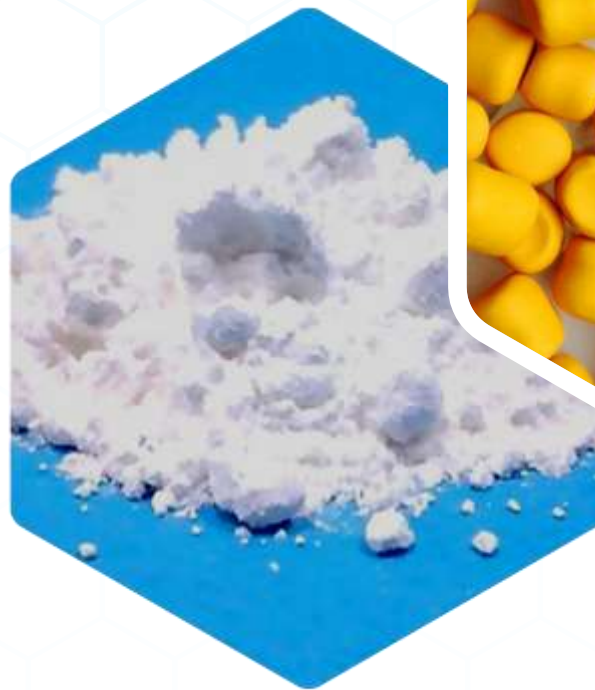

White Charges:

- Zeosil 185 powder (SiO₂)
- Zeosil 185 granulated (SiO₂)

Our inventories include products as;

Accelerators:

- CBS
- DPG
- MBT
- MBTS
- TBBS
- TET
- TMTD
- ZDBC
- ZDEC
- ZDMC
- ZMBT

Our inventories include products as

Other Chemicals:

- Zinc Oxide
- Stearic Acid
- Plasticizers
- Vulcanization Retardants
- Antioxidants

Our inventories include products as;

Rubber - Metal Adhesives

- Thixon 422
- Thixon 423
- Thixon P11-EF
- Thixon 520-EF
- Thixon OSN-2-EF
- Megum 538
- Thixon 2001 EF
- Robond TR-7025A

Our inventories include ITW Pro Brands' DiamodKote and Crystal line of release agents.

- ITW pro brands' industry-leading Diamondkote and Crystal water-based release agents are designed to provide the molding industry with incredible value and their premium quality is used around the world for some of the most demanding molding applications. These products promote clean tooling, reduced applications and lower scrap rates in molding operations and enable higher levels of productivity compared to competitive products. Known worldwide for ease of application, minimal build-up, higher productivity and lower scrap rates.
- Functional for:
- General Rubber Molding Tire
- Molding (PKW-455 CL)
- Elastomer belting.
- Sulfur and peroxide curing methods.
- Silicon, FKM, BR, EPDM, Natural Rubber, SBR, NBR, HNBR, some polyurethanes, among others.

Our inventories include ITW Pro Brands' signature products (from the LPS* line), which are known around the world for their ease of use.

- **Electronic circuit cleaners (Micro X, CFC Free)**
- **Lubricants (LPS-1)**
- **Corrosion inhibitors (LPS-3)**
- **Industrial degreasers**
- **Cutting fluids**
- **Greases**

***available only through our network of distributors**
